

Project Oceanology Ocean Camp

Hands-on, Minds-on ~ Summer Fun Completed grades 5 – 12

Ocean Camp is a weeklong residential camp where campers enjoy direct access to Long Island Sound from our waterfront facility and aboard our two research vessels and fleet of skiffs. Campers conduct oceanographic research on water and land while exploring salt marshes, sandy beaches and rocky intertidal zones. Content and focus varies by age group.

Please visit Project Oceanology at www.oceanology.org for camp applications and more information.

\$750 Tuition

includes room and board
