

# Project Oceanology

## Ocean Explorer Academy

## Hands-on, Minds-on ~ Summer Fun

Completed 4<sup>th</sup>, 5<sup>th</sup> or 6<sup>th</sup> grade

Ocean Explorer Academy is a weeklong day camp where campers explore Long Island Sound's rocky shores, salt marshes and barrier beaches. Students discover the vital role these habitats play in our coastal ecosystems by using scientific instruments on land and water, such as trawl and seine nets and water chemistry kits. Camp includes time aboard our Enviro-Lab research vessels and our fleet of skiffs. Please visit Project Oceanology at [www.oceanology.org](http://www.oceanology.org) for camp applications and more information.
